TQ-Systems Software License Agreement Version 1.0.2

Copyright 2018 TQ-Systems GmbH (TQ), D-82229 Seefeld, Germany.
All rights reserved.

It is permitted to copy and distribute this document true to word.

The software license is bound to the use of the TQ-Systems hardware.
The software is classified as product-specific software.
The software is provided exclusively in machine-readable form (binary or object code).

§1 Scope of Use and Usage Period

1. The rights to the TQ software - in particular the copyright and

additional industrial property rights - shall remain exclusively with TQ even if the software has been modified by you or your company.

You are prohibited from using this Software in any way other than as described in the following provisions of this Agreement.

2. The ordinary, non-exclusive right to use the Software shall only apply in direct connection with the Product Hardware. Product hardware means that the hardware has been produced by TQ or a company affiliated with TQ and that the software has been developed specifically for that hardware.

You are prohibited from using the software developed by us on hardware products from third parties.

Any transfer to third parties is bound by the provisions of this Agreement.

3. You are obliged to report every activity to TQ in writing, with the exception of those actions which, according to the conditions of the Copyright Act (UrhG), do not require the release of the rights holder.

Outside the scope of the cases specified in the Copyright Act (UrhG), you are not entitled to modify, reverse engineer or translate the software.

If our software as a work uses software parts of third parties and therefore paragraph 1, subparagraph 3. contradicts license conditions applicable to these software parts of third parties, we additionally grant you the right to obtain permission to modify our software in binary form for your own use only and to carry out reverse engineering for the purpose of debugging these modifications. You may not distribute the modified version to third parties in any format.

4. Any use of the software that goes beyond the scope of the previous provisions requires our written consent.
5. We reserve the right to assert claims for damages.
6. You are only entitled to sub-license the software in connection with the product hardware.
7. In the event of sub-licensing, you must also ensure that no additional rights to the Software are granted to sublicensees other than those granted to you under these License Terms.
8. If you transfer your rights to the Software to any third party, you must destroy any untransferred copies of the Software.

§2 Warranty; Liability

1. We expressly point out that it is not possible according to the state of the art to develop more complex software in such a way that an error-free function is guaranteed under all application conditions. We therefore only guarantee that the delivered software is suitable for contractual use in accordance with the description created or accepted by us.
2. In case of larger and comprehensible deviations of the software functionality from the product description or specification, we are entitled to either refund the purchase price paid by you, or a subsequent performance in the form of a repair within the framework of a reasonable period or to arrange for a replacement delivery of the Product.
In the event of significant and reproducible deviations in the functionality of the software from the product description or specification, we shall be entitled, at our discretion, either to refund the purchase price paid by you or to subsequent performance within a reasonable period of time by way of repair or new delivery. If, within the framework of the supplementary performance chosen by us, we are unable to eliminate the considerable deviations in the functionality of the software that have occurred within a reasonable period by providing a defect-free update or upgrade of the software or to circumvent them in such a way that you are able to use the software in accordance with the contract, you may claim a reduction in the agreed remuneration or withdraw from the contract. Any further claims are excluded to the extent permitted by law.
3. We do not warrant for minor deviations in the functionality of the software from the product description or specification.
4. The warranty period is one (1) year, unless longer periods are required by law. It begins with the acceptance of the software by

you or - if a formal acceptance is not planned or does not take place - at the latest two (2) weeks after delivery or actual transfer.

- 5. We do not warrant or assume any liability beyond the scope of use described in paragraph 1 with respect to the proper selection, application and use of the Software. This applies in particular to improper use, in particular the use of incompatible hardware or software, modifications or extensions to the software made independently by or at your instigation, the culpable omission of regular data backup and other cases of incorrect or negligent handling by you.

If you use the software outside these license terms, all warranty and liability claims are void. The aforementioned warranty or liability limitations shall not apply in cases of injury to life, limb or health, in cases of liability falling within the scope of the Product Liability Act, insofar as the software lacks a property or quality expressly warranted by us or we are at fault in the form of intent or gross negligence.

§3. Additional conditions

- 1. Copies must contain a literal copy of this document.
- 2. TQ-Systems may revise this License from time to time. Each Revision is identified by a Version number. You may either use this Software within the scope of this version or the license or under the conditions of a later Revision of the license.

10. Export Control.

a. The Licensed Materials are subject to U.S. export controls and sanctions, the most important of which are administered by the Commerce Departments Bureau of Industry and Security (BIS) under its Export Administration Regulations (EAR) (15 Code of Federal Regulations Parts 730-774) and the Treasury Departments Office of Foreign Assets Control (OFAC) under its Foreign Assets Control Regulations (31 Code of Federal Regulations Part 500). You will comply, and will ensure that your subsidiaries comply, with all applicable laws and regulations whenever you export, re-export, or transfer the Licensed Materials. The Licensed Materials may not be exported, re-exported, transferred, or resold to a person or entity barred by the U.S. Government (collectively, Denied Persons) from participating in export activities. Denied Persons include, but are not limited to, those individuals or entities listed on the Commerce Departments Denied Persons List, the Commerce Departments Entity List, the Directorate of Defense Trade Controls List of Statutorily Debarred Parties, and the Treasury Departments List of Specially Designated Nationals.

b. Unless prior authorization is obtained from BIS, OFAC, or any other responsible U.S. Government agency, neither you nor your subsidiaries shall (i) sell, export, re-export, transfer, resale or release, directly or indirectly (including, without limitation, by permitting the Licensed Materials to be downloaded), any technology, software, or software source code, received from TI, or export, directly or indirectly, any direct product of such technology, software, or software source code to any U.S. embargoed, sanctioned, or restricted destinations as defined in EAR Supplement No. 1 to Part 740, Country Group E, or to any entities or enterprises listed in EAR Supplement No. 4 to Part 744; or (ii) export, re-export, transfer, release, purchase, or resale for a military end-use or to a military end-user in a country listed in EAR Supplement No. 1 to Part 740, Country Group D1. Military end-use means incorporation into a military item described on the U.S. Munitions List (USML) (22 Code of Federal Regulations Part 121, International Traffic in Arms Regulations) or the International Munitions List (IML) (as set out on the Wassenaar Arrangement website at www.wassenaar.org); or commodities classified under Export Control Classification Numbers (ECCNs) ending in A018 or under 600 series ECCNs. Military end-user means the national armed services (e.g., army, navy, marine, air force, or coast guard), as well as the national guard and national police, government intelligence or reconnaissance organizations, or any person or entity whose actions or functions are intended to support a military end-use. The Licensed Materials may not be exported, re-exported, transferred, or resold, directly or indirectly, for the design, development, fabrication, or use of nuclear, chemical, or biological weapons, or missile technology without U.S. Government authorization.

c. You will observe all other applicable restrictions concerning other end-uses/end-users according to other laws and regulations (e.g., European Commission regulations or any other national regulations). Further, you will obtain any necessary export authorization prior to the exportation, re-exportation, or transfer of any Licensed Materials acquired from TI under this Agreement. Each party will secure, at its own expense, such authorization and export and import documents as are necessary for each respective party to fulfill its obligations under this Agreement. Any software export classification made by TI shall be for TIs internal use only and shall not be construed as a representation or warranty regarding the proper export classification for such software or whether an export authorization is required for the exportation of such software. If you violate any of your obligations under this Section, TI may terminate, cancel, or otherwise be excused from performing any obligations it may have under this Agreement.

d. All obligations under this section shall survive termination of this Agreement.

11. Governing Law and Severability; Waiver. This Agreement will be governed by and interpreted in accordance with the laws of the State of Texas, without reference to conflict of laws principles. If for any reason a court of competent jurisdiction finds any provision of the Agreement to be unenforceable, that provision will be enforced to the maximum extent possible to effectuate the intent of the parties, and the remainder of the Agreement shall continue in full force and effect. This Agreement shall not be governed by the United Nations Convention on Contracts for the International Sale of Goods, or by the Uniform Computer Information Transactions Act (UCITA). The parties agree that non-exclusive jurisdiction

for any dispute arising out of or relating to this Agreement lies within the courts located in the State of Texas. Notwithstanding the foregoing, any judgment may be enforced in any United States or foreign court, and either party may seek injunctive relief in any United States or foreign court. Failure by TI to enforce any provision of this Agreement shall not be deemed a waiver of future enforcement of that or any other provision in this Agreement or any other agreement that may be in place between the parties.

12. PRC Provisions. If you are located in the Peoples Republic of China (PRC) or if the Licensed Materials will be sent to the PRC, the following provisions shall apply:

a. Registration Requirements. You shall be solely responsible for performing all acts and obtaining all approvals that may be required in connection with this Agreement by the government of the PRC, including but not limited to registering pursuant to, and otherwise complying with, the PRC Measures on the Administration of Software Products, Management Regulations on Technology Import-Export, and Technology Import and Export Contract Registration Management Rules. Upon receipt of such approvals from the government authorities, you shall forward evidence of all such approvals to TI for its records. In the event that you fail to obtain any such approval or registration, you shall be solely responsible for any and all losses, damages or costs resulting therefrom, and shall indemnify TI for all such losses, damages or costs.

b. Governing Language. This Agreement is written and executed in the English language and shall be authoritative and controlling, whether or not translated into a language other than English to comply with law or for reference purposes. If a translation of this Agreement is required for any purpose, including but not limited to registration of the Agreement pursuant to any governmental laws, regulations or rules, you shall be solely responsible for creating such translation.

13. Contingencies. TI shall not be in breach of this Agreement and shall not be liable for any non-performance or delay in performance if such non-performance or delay is due to a force majeure event or other circumstances beyond TIs reasonable control.

14. Entire Agreement. This is the entire agreement between you and TI and this Agreement supersedes any prior agreement between the parties related to the subject matter of this Agreement. Notwithstanding the foregoing, any signed and effective software license agreement relating to the subject matter hereof and stating expressly that such agreement shall control regardless of any subsequent click-wrap, shrink-wrap or web-wrap, shall supersede the terms of this Agreement. No amendment or modification of this Agreement will be effective unless in writing and signed by a duly authorized representative of TI. You hereby warrant and represent that you have obtained all authorizations and other applicable consents required empowering you to enter into this Agreement.
